ABSTRACT

The directory is an unannotated list of approved occupational training programs found in the secondary schools of Illinois. Entries are listed alphabetically by location. Counties are listed with each school location to differentiate between similar location names. Programs are grouped under five occupational areas: applied biological and agricultural; business, marketing, and management; personal and public service; health; and industrial oriented, which also includes those programs not classified in any other occupational area. Separate lists are provided for comprehensive high schools and area secondary vocational centers. Programs of orientation and preparation for occupational training are not listed. It is hoped the directory will be helpful to those engaged in planning on a State or regional basis. (Author/NH)

OCCUPATIONAL TRAINING PROGRAMS
IN
ILLINOIS SECONDARY SCHOOLS

This booklet contains approved Occupational Training Programs found in the secondary schools of the State in an alphabetical arrangement by location.

The county is listed opposite the location to differentiate between similar location names.

The programs are grouped under the five occupational areas: Applied Biological and Agricultural Occupations; Business, Marketing and Management Occupations; Personal and Public Service Occupations; Health Occupations; and Industrial Oriented Occupations. Those programs unclassified by occupational area are listed under this heading. The programs of orientation and preparation for occupational training are not listed.

This booklet was produced for the convenience of those engaged in planning on a State or Regional basis and is available to all agencies who have need for such information
